DETAILED ACTION

Response to Amendment

The amendment filed on 11/15/2004 has been received and acknowledged to be found persuasive in view of the prior art of record.

Allowable Subject Matter

Claims 1, 3-83 are allowable.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does describe a system of first/upper and second/lower rotors which operate to process a workpiece using a robot, but the prior art fails to describe, teach or suggest *inter alia* the invention of using an upper and a lower rotor engaged to form a workpiece processing chamber, as claimed. The claims, therefore define over the prior art. Any comments considered necessary by applicant must be submitted no later than the payments of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
